Another Indie Favorite

Children of the New World, by Alexander Weinstein (Picador/Macmillan, \$16) "These realistic scenarios, set in a not-too-distant future, made me really think about all the technology I've come to depend on in my everyday life. You'll want your book club to read it, plus your significant other and your neighbor. You'll want to share this excellent book so you can keep thinking about it and talking about it, too." —Sue Roegge, Chapter2Books, Hudson, WI
